

Bring Your Own Device (BYOD)

At Cabra we use a Bring Your Own Device (BYOD) approach to provide families with the most cost effective and flexible option for ensuring that your child can access learning and resources through the college network.

You are free to purchase your preferred device through a supplier of your choice. It has been our experience in recent years that most reputable retailers are able to offer good advice about the selection of an appropriate device when provided with the list of specifications.

Minimum specifications at Cabra - both Apple and Windows devices supported

- 13-14 inch screen recommended
- Intel i5 processor
- 4GB Ram
- 120GB Hard drive (SSD recommended)
- 802.11a/b/g/n Wi-Fi wireless networking
- USB Ports
- Webcam
- **Minimum 8 hour battery life**
- Recommended weight <2kg

Students can obtain a free licence for MS O365 and Windows OS-Win 10 etc. on commencement at Cabra. In addition some subject specific software (media / art / music e.g. Adobe Creative Cloud etc.) can be installed free of charge on student devices.

The IT department is located in the Monica Farrelly Atrium (resource centre).

Key contacts for more information about BYOD:
