Managing COVID-19 and Influenza Positive Cases

Winter can bring increased risks of illness (e.g., colds, flu and gastro).

- **COVID-19:** Students showing COVID-19 symptoms should stay away from school until acute symptoms (runny nose, sore throat, cough and fever) have cleared (usually 5 to 7 days).
- **Influenza:** Students with influenza and influenza-like illnesses should stay away from school until well (at least 7 – 10 days for students).

Students can reduce the risk of getting sick of passing infections on to others by washing their hands (particularly after going to the toilet or handling used tissues) and covering their coughs and sneezes with a tissue.

For further advice on keeping healthy during winter, please read these tips from SA Health: [Keeping healthy in winter | SA Health](#)

Pedestrian Safety

Students are reminded that if they are attempting to cross Goodwood Road before or after school (near the intersection with Little Street), they must cross at the nearby pedestrian crossing.

Any attempt to cross the road elsewhere is unsafe and puts students at risk of harm. It is also a breach of the Australian Road Rules. Students can increase their safety in the road environment by using safe routes and road crossings.
